***PROJECT DESCRIPTION***

This project serves to increase wastewater treatment capacity at the Swinomish Lodge & Casino, as well as replace aging equipment. The proposed improvements are located in the northwest corner of the property. The improvements include construction of new 100,000 gallon concrete treatment process tanks and demolition of one existing 25,000 gallon concrete tank adjacent to the existing Wastewater Treatment Building. New underground piping will connect the new tanks, and upgraded mechanical equipment and electrical systems will be installed within the new tanks and existing Wastewater Treatment Building.
